SUPPORT YOUR IMAGINATION

| About Selens

Selens was founded in 2011 and has been in the industry of photography lighting equipment and related accessories for 12 years. Selens is committed to provide excellent solutions to behind-the-scenes workers in the field of photography and film making. We attach great importance to user experience and listen carefully to needs and desires, which inspires us to create better products that help users to complete their jobs more easily and efficiently.

Selens' products focus on user-friendly, simple and convenient concepts, allowing users to focus on creation and allowing imagination to be freely released without the constraints of technical problems.

Selens products are engineered to provide incredible strength and durability in the toughest environments and are recognized by industry professionals.

EasyStation Cart Workstations

Cart workstation, manufactured with CNC precision, is sturdy and durable, and can bear a load of more than 200kg.

The top and bottom plates can be snapped and locked, and the remaining components are placed in the internal cavity and transported using external wheels and handles. It is easy to transport and does not take up space. The director's car comes in 3 sizes: 30", 40", and 55". Different sizes meet different needs.

There are abundant expansion interfaces on the four sides of the enclosure to facilitate the connection of various external accessories. The long side fence of the upper platform can be folded and can be used as a temporary office platform.

Camera & Phone Cages

Camera cage is made of metal, fits the camera without blocking the interface, buttons, battery and screen.

Currently supports Sony, Canon, Nikon, etc.

The camera cage has reserved multiple cold shoes, 1/4, and 3/8 threaded holes to facilitate the connection of external equipment, such as top handles, side handles, magic arm, etc.

Camera cage is made of aluminum alloy, processed by CNC, and molded accurately according to the camera.

More interfaces: cold shoes, 1/4 threaded hole, 3/8 threaded hole, etc., can be expanded with accessories.

Built-in magnetic wrench, easy to use at any time without fear of loss.

Silicone anti-slip pad to prevent camera from rotating.

Camera L-Plates

The L-plate has ARCA quick-release slots on the bottom and sides, support quick switch between horizontal and vertical shooting modes.

It made of metal, improve the expandability of the camera and protect the camera.

It is precisely made according to the size of the camera and without blocking the camera ports, buttons, battery compartment and display.

L-plate is made of metal and is made with CNC technology. It is precisely made according to the size of the camera and has precise hole positions.

1/4, 3/8 screw holes for expansion of accessories, such as microphones, lights, etc.

Anti-slip sheet on the bottom to prevent the camera from spinning and scratching.

Some L-plate battery compartment covers adopt a flip design to avoid blocking the battery compartment.

Some L-plate side panels adopt a pull-out design, leaving space for wires.

Built-in hexagonal wrench or flat wrench, magnetic storage to prevent loss.

Some L-plate side panels adopt a detachable design and can be disassembled and assembled according to shooting needs.

Shock Absorbing Cradle Head

SSPB-6

Tripod Heads

Ball Head (25mm)

SP13-BH25

Sphere diameter 25mm. The gimbal locking wrench can be pulled out to better adjust the angle. The base has a 360° horizontal scale for easy panoramic shooting.

Ball Head (30mm)

BH-30-2K-B

Sphere diameter 30mm. The gimbal locking wrench can be pulled out to better adjust the angle. The base has a 360° horizontal scale for easy panoramic shooting. The locking knob of the quick-release plate is equipped with a level, which can adjust the horizontal position more accurately when shooting vertically.

Ball Head (40mm)

SP13-BH40

40mm sphere, low center of gravity, more portable and stable. Dual panoramic design, any tilt can achieve horizontal shooting needs. 360° horizontal scale for easy panoramic shooting. Double knobs, the damping can be adjusted freely and can be quickly rotated and tightened. 90° opening and vertical groove design quickly fix the vertical shooting angle. The clamp base level facilitates quick and precise adjustment of the horizontal position.

Item	Color	Ball Diameter	Size	Material	Weight	Load Bearing	Camera Screw	Chassis Screw Hole

Tripod Heads

Hydraulic Head

SP13-VH500

The Hydraulic Head supports adjusting pitch damping and automatic rebound, allowing for smooth camera movement when shooting. 65mm universal base and 3/8 screw hole, suitable for a variety of tripods.

Panoramic Head (60min)

SP13-PH60

360° automatic rotation, panoramic time-lapse shooting, up to 2 hours, with segment scales of 15, 30, 45, and 60 minutes.

Note: When the lens exceeds 50mm, it needs to be adjusted with a fine-tuning quick-release plate, otherwise it cannot be used (the quick-release plate needs to be purchased separately)

Panoramic Head (120min)

SP13-PH120

360° automatic rotation, panoramic time-lapse shooting, up to 2 hours, segmented scales of 30, 60, 90, 120 minutes.

Note: When the lens exceeds 50mm, it needs to be adjusted with a fine-tuning quick-release plate, otherwise it cannot be used (the quick-release plate needs to be purchased separately)

Micro Panoramic Ball Head

SP13-MBP19

Item	Height	Material	Weight	Load Bearing	Camera Screw	Chassis Screw Hole
SP13-VH500	10.7cm	Aluminum alloy	780g	15kg	1/4	1/4, 3/8
SP13-PH60	4.2cm	Aluminum alloy	210g	0.45kg	1/4	1/4
SP13-PH120	4.2cm	Aluminum alloy	219g	1.2kg	1/4	1/4, 3/8
8SP13-MBP19	6.2cm	Aluminum Alloy	140g	8kg	1/4	3/8

Micro Heads

Micro Ball Head

SP13-BH19

The upper part on the head can be used in both positive and negative ways, and the 1/4 screw and cold shoe mount can be switched to make it easier to install and use more equipment. 360° panoramic shooting, 135° opening, and can be rotated forward and backward for easy vertical shooting.

Adjustable Monitor Mount

SP13-SYT2

The compact and easy-to-carry head is only 1/3 the size of a credit card. It can rotate 180° forward and backward and 360° horizontally to easily adjust the shooting angle.

Item	Height	Material	Weight	Load Bearing	Camera Screw	Chassis Screw Hole
SP13-BH19	5.5cm	Aluminum alloy	64g	5kg	1/4	1/4
SP13-BH19II	5.5cm	Aluminum alloy	70g	5kg	1/4	1/4
SP13-SYT2	4.3cm	Magnesium aluminum alloy	41g	4kg	1/4	1/4
SP13-SYT3	5.5cm	Aluminum alloy	150g	3kg	1/4	1/4

Micro Ball Head II

SP13-BH19II

Based on the first generation of the micro ball head, a cold shoe mount is added on the side to allow more external devices to be connected. The 1/4 screw and cold shoe mount can be switched to facilitate the installation and use of more equipment. The opening design allows the ball to rotate 135° forward and backward, making it easy to shoot vertically.

Adjustable Monitor Mount

SP13-SYT3

The upgraded version of the adjustable monitor mount has enhanced load-bearing capacity and a built-in gear mechanism. The angle adjustment support is stronger and not easy to loosen. It can rotate 180° forward and backward and 360° horizontally.

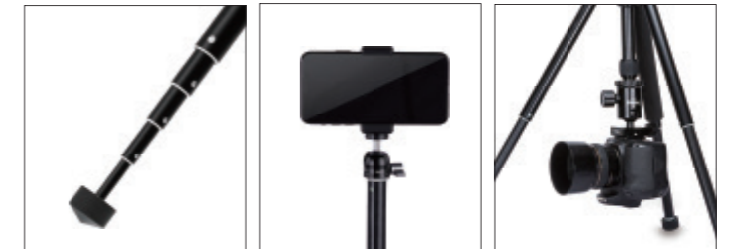

Tripods

Eccentric tube tripod with head

The five-section leg tube is widely telescopic and has an eccentric tube design. You only need to rotate the leg tube counterclockwise to compress it back. The central axis is retractable and removable, and can be used as a monopod and retractable selfie stick.

1/4 universal screw port, 180° folded for storage, easy to carry.

Selens Type-C Quick Charge Battery

「2400mAh」 HIGH CAPACITY

2400mAh high-quality battery, long-lasting battery life

The battery has a Type-C interface, eliminating the need to carry a charging base with you

Each battery can continuously shoot about 720 beautiful pictures and record videos for about 3 hours

Sealed storage box, waterproof, dustproof and pressure-proof, with sponge pad lining to protect the battery

Batteries

It uses the original battery cell of the camera, and the battery has a type-C interface for easy charging. Paired with the Selens white battery box, it can charge two batteries at the same time, or it can be used as a power bank to charge phones and other devices.

Battery Type-C Battery

Battery for Nikon EL15

TEN-EL15 Type-C Battery
EN-EL15 Battery

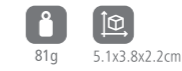

Suitable for Nikon: Z7 II、Z6 II、Z7、Z6、Z5、D850、D810A、D810、D800、D800E、D750...

Battery Type-C Battery

Battery for Sony FZ100

TNP-FZ100 Type-C Battery
NP-FZ100 Battery

Suitable for Sony: A9、ILCE-9、A7R V、A7R III、A7 III、A6600、A7S III、A7C、A9 II、A7R IV、FX30...

Battery Type-C Battery

Battery for Fujifilm NP-W235

TNP-W235 Type-C Battery
TNP-W235 Battery

Suitable for Fujifilm: X-T4、X-T5、GFX 100S、GFX 50S、X-H2、X-H2S...

Charging Case for Nikon EL-15

DB-EL15
144g 13.5x9.5x3cm

Suitable for Nikon battery: Z7 II、Z6 II、Z7、Z6、Z5、D850、D810A、D810、D800、D800E、D750...

Charging Case for Sony FZ100

DB-FZ100
144g 13.5x9.5x3cm

Suitable for Sony battery: A9、ILCE-9、A7R V、A7R III、A7 III、A6600、A7S III、A7C、A9 II、A7R IV、FX30...

Charger for Nikon EL-15

DL-EL15
56g 9.5x5.5x4cm

Suitable for Nikon battery: Z7 II、Z6 II、Z7、Z6、Z5、D850、D810A、D810、D800、D800E、D750...

Charger for Sony FZ100

DL-FZ100
56g 9.5x5.5x4cm

Suitable for Sony battery: A9、ILCE-9、A7R V、A7R III、A7 III、A6600、A7S III、A7C、A9 II、A7R IV、FX30...

Charger for Fujifilm NP-W235

DL-W235
56g 9.5x5.5x4cm

Suitable for Fujifilm battery: X-T4、X-T5、GFX 100S、GFX 50S、X-H2、X-H2S...

PD two-way fast charging, 100W high power output

HIGH ENERGY FAST CHARGING

100W ⚡
PD two-way fast charging

Batteries

Dual D-TAP interface, Type-C 100W input and output power. BP/D-TAP 207W output power, DC power supply from 8V to 12V.

Type-C fast charging can be used as a power bank to power devices

High-performance imported BMS intelligent control chip

OLED display, real-time display of parameters

Apple Boxes

The apple box is a wooden box made of nine-layer panels. It is hard and resistant to compression. It is mainly used as an auxiliary tool for film and television shooting. The Selens apple box adopts a newly upgraded magnetic design, which allows the lid and box body to be tightly attached and not easy to slip off. It is usually used to support and flatten the track of the camera. It can keep the camera running smoothly even on soft sand. It can be used as a temporary seat, to raise the direction of the control light, to increase the height of the actors, etc. It is an indispensable part in film and television shooting. Missing props.

Item	Size	Material	Weight
SDA12-AB50	30x50x22 cm	Poplar	8.6kg

Optional Accessories

FOLD Folding Carts

The folding cart is specially designed for outdoor photography. It has a large capacity and strong load-bearing capacity. It can store various equipment at will and is easy to access. The handlebar design at the bottom of the cart allows the cart to be folded quickly, making it more convenient to use and taking up less space.

Folding cart have two different wheels to choose from - narrow wheels and sand wheels. The narrow wheels are made of rubber and have deep tire treads; the sand wheels have a larger ground contact area and are more wear-resistant, and can pass through soft textures such as beaches, grass, and muddy roads. Front wheel foot brake design makes parking safer and more secure.

Internal space of folding tool cart:
Large and small storage bags on the inner wall,
storage of various tools in different areas

Folding lever, adjustable at
multiple angles

Side handle design makes it easier
to carry horizontally after storage

Foldable for storage, taking up
no space and easy to carry
