Who We Are

PETWANT was founded in 2003, began with selling the first THREE-meal pet feeder. We're headquartered in Shenzhen and factory in Dongguan. Over the past 20 years, we've grown from a small trading team with just one product to a team of hundreds of staff.

Supported by our pet experts and R&D team, we aim to figure out how to meet the real needs of pets and how to provide our partners with elegant, sustainable, cost-effective products and services. Our team of pet lovers is passionate about developing products that enhance the relationship between pets and their owners.

Petwant started with passion and has been continued growing with classic pet products. A strict quality control system from sample to mass production give pet owners the best experience possible with their pets. Our business scope includes own-developed electronic items and outsourced non-electronic pet products which are covering Feeders, Fountains, Grooming Tools, Toys, etc.

Petwant walks into the pet's life together with the pet behavior expert.
Like our mission "Love in the heart, smart in every moment"
