

LED strip settings

Suitable for installation with 5V/12V BEC

Step 1: Set BEC control CLI Commands

FC LED pad as an example:

```
resource LED_STRIP 1 NONE
resource PINIO 1 A09
set pinio_box = 40,255,255,255
set pinio_config = 1,129,129,129
save
```

Step 2: Turn on the USER1 mode and set the AUX* switch
