

# Attends® For Men

Level 1 & 2

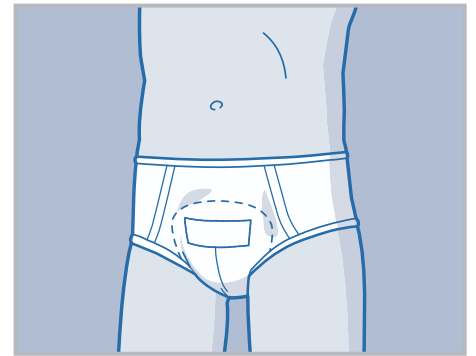

## Fitting Guide

**1** Ensure that the pad is folded out with the wider section of the pad facing upwards (as shown by the arrows on the release paper). Remove the release paper.

**2** Secure the pad into your underwear making sure that it keeps its 'cup' shape.

**3** Fasten the pad with the fixation tape to the inside of your own close fitting underwear ensuring that the tape is not next to the skin.

## Hints and Tips

### Selection

- Choose the absorbency of pad required according to individual client assessment.
- For optimal performance, we suggest using the pad in combination with close fitting underwear.
- We would not recommend the use of boxer shorts.

### Disposal

- Roll up the pad and dispose of as per your local authority or NHS waste policy.
- Do not flush the pad down the toilet.

*The skin tolerability of Attends for Men is dermatologically approved by proDERM Institute for Applied Dermatological Research*

# Attends® For Men

Level 3 & 4

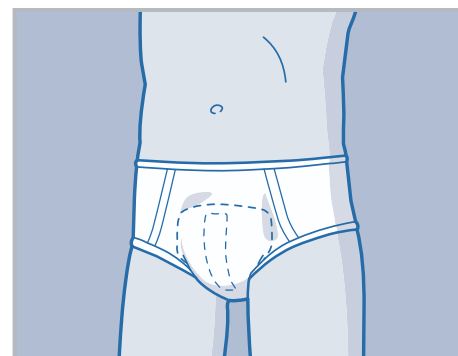

## Fitting Guide

**1** Ensure that the pad is folded out with the wider section of the pad facing upwards (as shown by the arrows on the release paper). Remove the release paper.

**2** Gently fold and cup the pad lengthways to ensure the leakage barriers stand up. Don't touch the leakage barriers - they will cup and fit naturally with the pad. Secure the pad into your underwear making sure that it keeps its 'cup' shape.

**3** Fasten the pad with the fixation tape to the inside of your own close fitting underwear ensuring that the tape is not next to the skin.

## Hints and Tips

### Selection

- Choose the absorbency of pad required according to individual client assessment.
- For optimal performance, we suggest using the pad in combination with close fitting underwear.
