Product Maintenance

Careful and good maintenance and production of this product play a very important role in lengthening the service life of the product and decreasing faults.

Avoid heating, damping, or direct sunlight

You shall not have the musical instrument exposed to sunlight in excess, or placed where is near air conditioner or baking hot

you should not use it near TV set or radios

This musical instrument may lead to video or audio disturbance on TV set and Radio. In that case, you shall move the musical instrument away from TV set or radio

You should not use paint, thinner or similar chemicals to clean

This musical instrument may lead to video or audio disturbance on TV sets and radio. In that case, you shall move the musical instrument away from the TV set or radio

You should avoid quake and collision

The product shall be handled with care when removing with strict prohibition of strenuous quake and collision in order not to make outer shell or innerelectronic components damaged.

Avoid using where is easy to be affected by abnormal high and low temperatures

Too high or low temperature may make pictures on LCD screen turn to be gray and hard to be identified. When you have the product under normal temperature. the case will be corrected automatically.

Safety Warning:

This product is electronic and electrical.

The long-term use of the circuit components may cause failures. It is recommended that the safe use period is 2 years.

After the safe use period, please regularly inspect the product. If you find any problems, please do not continue to use it. Cause a safety accident!
