ABOUT HAIR LOSS

Hair loss is an extremely common phenomenon
with around 80% of men experiencing it to a varying degree at some point in their lives

Meanwhile, almost 40% of women will experience significant loss

It is more expected by society that a man will lose his hair as he ages

HAIR LOSS SOLUTION

From undetectable wigs and toupees to the newest technology, such as hair systems, men and women can enjoy hair coverage like never before

Hair replacement systems

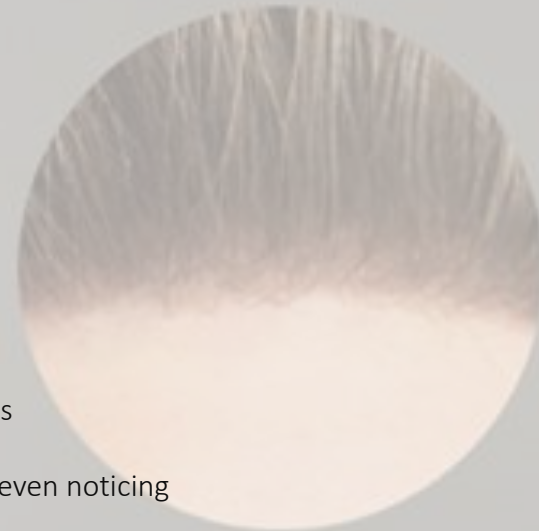

It is fast becoming the leading solution for hair loss

Particularly for men

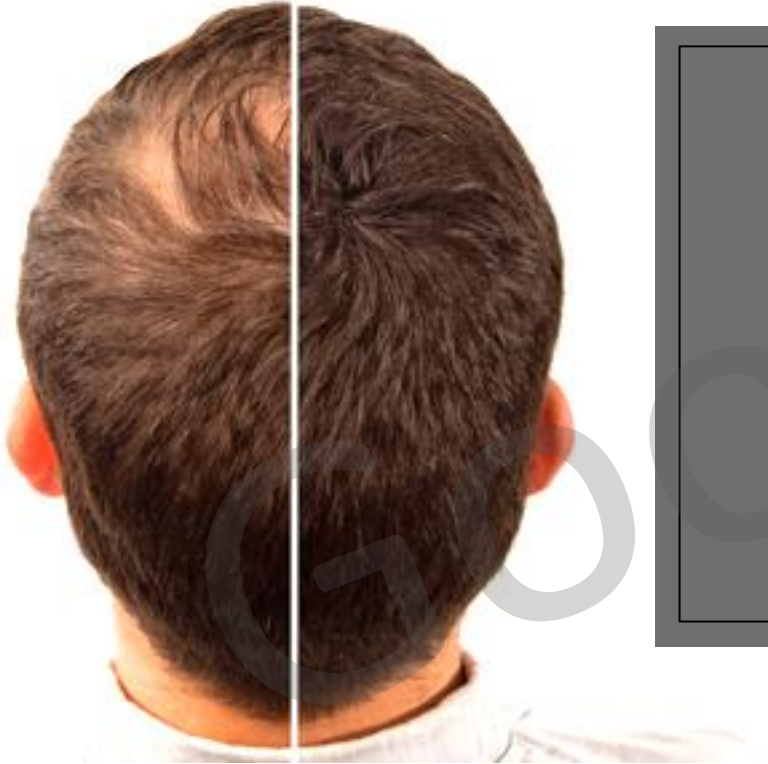

It is a non-surgical hair loss solutions

Hair system have been popularized by big name celebrities

Many of whom had been sporting seamless hair systems with no one even noticing

HAIR REPLACEMENT SYSTEMS

Who Need It ?

People who are looking for a longer term answer to hair loss

People who wish to cover up hair loss all the time
not just when they are out and about

People with partial hair loss

People with complete hair loss

Which base suitable for you

Hair systems typically come in a choice of four types, covering the spectrum of durability and appearance

LACE BASE

Transparent lace give you

invisible performance

Better used in hair frontline

Durable lace net

Breathable and soft

MONO BASE

The most durable base

Suitable for heavy density
units

Less Breathable but also less
hair knots than lace base

SKIN BASE

Offers the ultra thin skin base
V-loop technology to achieve
natural looking

Soft and comfortable
Less durable than lace and mono
base, but more invisible

SILK BASE

Offers a fairly natural looking
appearance as the hair appears
to be growing directly from the
skin strand by strand, no hair
knots

1- LACE BASE SYSTEMS

- Hair Density : Medium 130%

- Base Size : 8"X10"

- Hair Wave : 30mm

- Hair Length : 6"

- Replacement Period : 90-180days

3 - SKIN BASE SYSTEMS

NG

0.02mm-0.03mm

MIRAGE

0.04mm-0.05mm

SKIN

0.12mm-0.14mm

What' s the difference between of NG/Mirage/Skin

- They are all made of thin PU, looks very natural.
- NG(Next Generation Skin) is comprised solely of a micro thin layer(0.02-0.03 mm), when secured takes over where nature left off.
So thin there is no definition between the client's natural hair and where the base begins
- Mirage is similar with NG, but the base is a little thick than NG. (0.04-0.05 mm)
- Skin Units has thickness skin(0.12-0.14 mm), it can last for 3-6 months.
we make the poly-skin into medium thickness. And the density is in Medium 130%.

SKIN BASE – Best Selling

NG

- Base Design : Ultra thin skin all over
- 3mil Extended skin front without hair
- V-looped through out to give the most natural & invisible hairline
- Base Thickness(mm) : 0.02-0.03
